

# FASTRAC TRAINING

If you want **intensive HVAC training**; more than what you can get in a 3-hour Skills class; and if your schedule won't allow you to attend one of our

semester long courses, then the **FASTRAC TRAINING PROGRAM** is for you. These 3-day intensive experiences are designed to significantly upgrade your troubleshooting skills.

**Daytime  
Programming!**

## The Carrier Furnace Troubleshooting Bible

This course is based on Shawn Stapinski's 25-year experience servicing Carrier furnaces, either as a field technician or Residential Service Manager for RSC. The class is a self help guide for troubleshooting Carrier furnaces; covering units from 1985 to the present. The class manual will provide the quickest methods for accurate diagnoses on over 20 different units. It includes numerous troubleshooting tips not found in material published by Carrier. **Demonstrations and hands-on exercises** will supplement the classroom activities.

Tuition is \$745, and includes materials, lunches, and breaks. A printed manual will be provided for future reference.

### Topics Covered:

- Natural draft furnaces: 58GP/GS/DR/DP
- Draft-induced furnaces: 58SS/PAV/RAV/ZAV/STA/DLA
- Condensing furnaces: 58SX/MX/MXA/MCB/MEB/MEC
- Two-stage draft-induced: 58TUA/TMA/CTA/UHV/CVA
- Two-stage condensing: 58MTA/MTB/SXB/SXC/VUA/MVP/MVC
