

Hydronics System Training

New for Columbus and Returning to Akron!

Investment: \$95 RSC customers, \$75 ProTecs

This special series is aimed at intermediate and advanced technicians who want to significantly increase their hot water heat technical skills. Taught by two industry veterans; Richard Wirtz in Columbus and Jim Filiez in Akron. Richard is well-known in Central Ohio as a professor and author at Columbus State, and Jim has taught this series previously in both Akron and Cleveland.

Classes are from 5:30-8:30pm, with a light supper served at 5:00pm. All classes are state license and NATE certified.

5

Columbus
